

You know the wedding you want.

I know where.

Say fairytale and most people say Spain. I might say Iceland, and show you why. I research destinations and venues against the wedding you actually described, then tell you the truth about each one. This breakdown sets out what each stage delivers, what it costs and how the stages build on one another.

How it works

- 1 Message me on WhatsApp**
Describe the wedding you want: the feel, guest numbers, season and budget.
- 2 Choose your starting stage**
Start with Destination Match, or go straight to Shortlist if your destination is settled.
- 3 Deposit and research**
I research against your brief and flag deal-breakers early.
- 4 Report and review call**
You receive the written findings and we go through them together.
- 5 Move to the next stage if you want to**
Each stage builds on the last. Nothing is repeated, and Destination Match fees are credited.

Payment

- **Destination Match:** paid in full to begin.
- **Venue Shortlist:** 50% to begin and 50% on delivery of the shortlist.
- **Verified Sourcing:** 50% to begin, 30% after the venue contact round, and 20% on the final recommendation.
- **Venue sourcing fees cover research and advice only.** Venue deposits and hire fees are paid by you directly to the venue.
- No commission is taken from venues without your knowledge. If a venue offers one, I will tell you.

Good to know

- Availability and prices are confirmed at the time of checking. Venues can change them until you sign and pay a deposit.
- Final decisions and contracts are between you and the venue.
- You can cancel before the consultation call for a full refund. Once work has started, fees cover the work completed.
- This is venue sourcing only. Travel planning and guest travel are quoted separately.
